Question 1.

Should Treaty of Waitangi
"full and final settlements"
be revisited for any reason?

In particular, what are your thoughts
on the Ihumatao issue?

Question 2.

Wit the amount of healthy people on Benefits, is your Party prepared to make it compulsory for them to be picking fruit etc, and if they refuse then they don't get the full Benefit?
If you disagree, why?

Question 3.

Concerning the recent behaviour of several Local governments in NZ, what does your Party think is an appropriate level of interjection when these people are failing their ratepayers?

Question 4.

What will your Party do to financially assist beleaguered councils, such as TCC, with infrastructure projects, and, in particular the current roads that do not adequately serve Tauranga, Papamoa and Papamoa East.

Question 5.

How will your Party financially support The Bay of Plenty region with its explosive growth?

Question 6.

To Labour. In the light of the previous election promises that were not kept, how can we trust all the new promises being made? Will the 126+ committees, costing in excess of $1million each, and provide little, if any progress still be continued if Labour is returned to government?

Question 7.
To NZ First.
How can voters have confidence in a Party that held the country to ransom last election and have since proved to illegally use the back door through that trust in the form of discretionary grants?
